As part of Durham County Department of Public Health’s efforts to control the spread of COVID-19, we will be administering COVID-19 vaccinations. The state's vaccination plan sets out a phased approach to vaccination prioritization, so that people at the highest risk of contracting COVID-19, people in congregate settings, and people with a high risk of severe illness are prioritized for receipt of COVID-19 vaccination.

In order to plan and execute vaccination operations at Durham County Department of Public Health, we must gather information from Durham County providers and their employees. We have developed two methods for gathering this information:

1. Follow this link, Durham County Department of Public Health COVID-19 Vaccine Participating Organization Prioritization Reporting Form, and complete the online form; or

2. Complete the attached document and return it via email to phplanning@dconc.gov.

As the NC Vaccine Distribution Prioritization Framework Phase 1b includes all healthcare workers with two or more chronic conditions, we anticipate that all Durham City/County providers should submit this information as soon as possible to Durham County Department of Public Health. Please share this email within your organization so that each department is able to report to their vaccination need. Overlap may be unavoidable, but please try to make sure people only get counted and reported once.

Thanks so much for your partnership to control COVID-19!

Currently, we are scheduling Tuesdays-Fridays, with appointments starting at 9am going through 3:30pm. With 10 appointment slots every half hour. I am making appointments for the week of 1/5/2021-1/8/2021 & 1/12/2021-1/15/2021.
